## **ANNEX 1: SCHEDULE OF REQUIREMENTS**

### **About ISA:**

The International Solar Alliance (ISA) is an action-oriented, member-driven, collaborative platform for increased deployment of solar energy technologies as a means for bringing energy access, ensuring energy security, and driving energy transition in its member countries.

The ISA was conceived as a joint effort by India and France to mobilise efforts against climate change through the deployment of solar energy solutions. It was conceptualised on the side-lines of the 21st Conference of Parties (COP21) to the United Nations Framework Convention on Climate Change (UNFCCC) held in Paris in 2015.

The ISA strives to develop and deploy cost-effective and transformational energy solutions powered by the sun to help member countries develop low-carbon growth trajectories, with particular focus on delivering impact in countries categorized as Least Developed Countries (LDCs) and the Small Island Developing States (SIDS). Being a global platform, ISA's partnerships with multilateral development banks (MDBs), development financial institutions (DFIs), private and public sector organisations, civil society, and other international institutions is key to delivering the change it seeks to see in the world going ahead.

### **Background:**

Recognizing the urgent need to support the ISA Member Countries with high potential for solar technology deployment, the ISA Assembly agreed to establish an international network of STAR C (Solar technology Application Resource Centre). The aim is to build the necessary human capacity and skills within member countries for them to undertake energy transitions on their own while also boosting economic growth and job creation.

STAR Centres act as the technology, knowledge, and expertise hub on solar energy and a go-to place for the member countries at regional and country levels. ISA's STAR Centre programme aims to meet the capacity-building needs of ISA Member Countries, by building solar-capable workforces, sensitising policy makers and financial institutions, incubating enterprises, standardisation of products and services and creating a knowledge repository on information related to solar energy.

### **Objectives:**

- The objective of the assignment is to conceptualize and develop a short film on ISA's STAR Centres in Ethiopia and Somalia, their importance, functions, projected outcomes and other relevant details.
- The film shall serve as a tool to showcase and sensitize different sections of the audience (Government, Private Sector, Training Institutes, Universities etc.) on the STAR C programme across the solar domain. The film should clearly depict the benefits of STAR Centres to the beneficiaries.

### **Scope of Work:**

- Conceptualize and develop a film of under 180 seconds in English highlighting the overall setting up of the STAR Centres in Ethiopia and Somalia, their programme, importance, functions, expected outcome and other essential details.
- Following the contract signature, the Contractor shall submit a detailed work plan and a methodology to ISA within 7 calendar days which is subject to the approval of ISA.
- Necessary **RAW footages, still pictures, information and details** relating to the subject will be provided to the Contractor by ISA which will include details on the subject and objective of the film and target groups.
- Contractor will submit two different scripts to ISA for the film for review and feedback.
- According to the script approved by ISA two storyboards will be developed by the Contractor and submitted for review and approval by ISA.
- Visual representation of all the scenes contained in the script will be reflected in the storyboards.
- The colour styling, voice-overs, backgrounds, action notes, and design of equipment and characters will be included in the storyboards.
- The storyboards of the films shall be written in English by the Contractor.
- The Contractor shall submit the storyboards to ISA for approval; implement the changes indicated by ISA and finalise the storyboards. There may be up to 3 reviews, which will be required by ISA.
- The Contractor shall use the official logos of ISA and of other relevant entities as designated by ISA and following the approval of ISA.
- Ensure high-quality packaging including sub-titles, opening, and closing credits, voice-over and music as may be required.
- The films shall be supported by anonymous or original (instrumental, local) scores or stock music without intellectual property issues. The music scores shall be approved by ISA.
- In the case of voice-over, voice samples of experienced, professional artists who shall perform the voiceover shall be submitted to ISA by the Contractor, and following ISA's approval, the voice-over shall be applied to the films. ISA reserves the right not to accept the proposed dubbing artist and to require alternatives for the dubbing artist.

### **Deliverables:**

- One film of under 180 seconds duration in full HD in the English language.

### **Ownership and copyright:**

- All copyright over footage rests with ISA. The film/multimedia company may not use, reproduce, or otherwise disseminate or authorize others to use, reproduce or disseminate such works without prior consent from ISA.

**Qualifications for the selection of Agency:**

- A minimum of 5 years’ experience in producing high-quality multimedia, compelling documentaries, short films/videos and animation for the development sector.
- Outstanding cinematography and storytelling skills.
- Outstanding animation skills.
- Please include samples of previous multimedia/films through online links.

**Timeline and Payment Terms:**

<b>Deliverables (Strict adherence to the final deadline is required)</b>	<b>Timeline (from the date of award of contract)</b>	<b>Payment Terms</b>
